

# **Municipal Ordinance No. 2018-12**

## **An Ordinance Regulating the Operation of Street Vendors Within the Public Market Area of the Municipality**

This ordinance was enacted to establish guidelines and regulations governing the operation of street vendors within designated public market zones of the municipality. Its primary objective was to promote public order, ensure sanitation standards, and maintain fair competition among registered vendors.

The ordinance outlined requirements for vendor registration, designated vending areas, operating hours, and compliance with health and safety regulations. It also provided penalties for violations such as operating without a permit, obstruction of public walkways, and failure to comply with sanitation rules.

This ordinance served as a temporary regulatory measure during the reorganization of the municipal public market and was intended to support orderly commerce while protecting public welfare.

### ***Status Note:***

This ordinance is already expired and is retained in the system for reference and historical documentation purposes only. It is no longer enforceable and has been superseded by updated municipal regulations.
